05 NAVIGATION - GUIDANCE

Choosing a new destination

Towards a new destination

- 1 Press on **Navigation** to display the primary page then go to the secondary page. 
- 2 Select **"Enter destination"**. 
- 3 Select **"Address"**. 
- 4 Select the **"Country:"** from the list offered then in the same way: the **"City:"** or its post code, the **"Road:"**, the **"N°:"**. Confirm each time. 
-  Select **"Save"** to save the address entered as a contact entry. The system allows up to 200 entries. 

- 5 Select **"Navigate to"**. 
- 6 Choose the navigation criteria: **"Fastest"** or **"Shortest"** or **"Time/distance"** or **"Ecological"**. 
- 7 Choose the restriction criteria: **"Include tollroads"**, **"Include ferries"**, **"Traffic"**, **"Strict"**, **"Close"**. 
- 8 Select **"Confirm"** or press **"Show route on map"** to start navigation guidance.  
- i** To delete navigation information, press on **"Settings"** then **"Stop navigation"**.  
- To restore the navigation information press on **"Settings"** then **"Resume navigation"**.  

05 NAVIGATION - GUIDANCE

Towards a recent destination

- 1 Press on **Navigation** to display the primary page then go to the secondary page.

- 2 Select "**Enter destination**".

- 3 Select an address from the list offered.

- 4 Select "**Navigate to**".
Select the criteria then "**Confirm**" or press "**Show route on map**" to start guidance.

Towards a contact

- i** Navigation towards a contact imported from a telephone is only possible if the address entered is compatible with the system.
- 1 Press on **Navigation** to display the primary page then go to the secondary page.

 - 2 Select "**Enter destination**".

 - 3 Select "**Contacts**".

 - 4 Select a destination from the contacts in the list offered.

 - 5 Select "**Navigate to**".
Select the criteria then "**Confirm**" to start guidance.

05 NAVIGATION - GUIDANCE

Towards GPS coordinates	Towards a point on the map
<p>1 Press on Navigation to display the primary page then go to the secondary page.</p> 	<p>1 Press on Navigation to display the primary page then go to the secondary page.</p> 
<p>2 Select "Enter destination".</p> 	<p>2 Select "Enter destination".</p> 
<p>3 Select "Address".</p> 	<p>3 Select "From map".</p> 
<p>4 Enter the "Longitude:" then the "Latitude:".</p> <input data-bbox="922 1034 1097 1075" type="text" value="6°54'689"/>	<p>4 Zoom in on the map then select the point.</p> 
<p>5 Select "Navigate to". Select the criteria then "Confirm" or press "Show route on map" to start guidance.</p> 	<p> A long press displays the surrounding tourist attractions.</p>

05 NAVIGATION - GUIDANCE

Towards points of interest (POI)	Points of Interest (POI) show all of the locations of services nearby (hotels, retail outlet, airports, ...).
<p>1 Press on Navigation to display the primary page then go to the secondary page.</p> 	<p>6 Select a point of interest from the list offered.</p> 
<p>2 Select "Search for a point of interest".</p> 	<p>7 Select "Navigate to".</p> 
<p>3 Select "All POIs" or "Garage" or "Dining/hotels" or "Personal" or "By name".</p> 	<p>i An annual mapping update allows new points of interest to be presented to you. You can also update the Risk areas / Danger areas every month. The detailed procedure is available on: http://peugeot.navigation.com.</p>
<p>4 Select a category from the list offered.</p> 	
<p>5 Select "Search".</p> 	

05 NAVIGATION - GUIDANCE

Towards points of interest (POI)

1

Press on **Navigation** to display the primary page then go to the secondary page.

2

Select "**Show POIs**".

3

Select a category from the list offered then "**Confirm**".

05 NAVIGATION - GUIDANCE

Risk area alert settings

<p>1 Press on Navigation to display the primary page then go to the secondary page.</p>		<p>2 Select "Settings".</p>	<p>5 Select "Confirm".</p> 
<p>3 Select "Alert config.".</p>		<p>! These functions are only available if Risk Areas have been downloaded and installed on the system.</p>	
<p>4 It is then possible to activate Risk Areas alerts then:</p> <ul style="list-style-type: none">- "Audible warning"- "Alert only when navigating"- "Alert only for overspeed"- "Display speed limits"- Timing: the choice of timing allows the time before giving a Risk Area alert to be defined.			

05 NAVIGATION - GUIDANCE

Adding a waypoint

- 1 Press on **Navigation** to display the primary page then go to the secondary page. 
- 2 Select **"Enter destination"**. 
- 3 Select **"Itinerary"**. 
- 4 Select **"Add waypoint"** then **"Enter address"**. 
- 5 The address of the waypoint is entered in the same way as a destination, so enter the **"City:"** or post code, the **"Road:"** and the **"N°:"**. Confirm each time. Then select **"Add waypoint"**. 

FRANCE	
PARIS	
Bldv Hossein	
N° 20	
- 6 Select **"Navigate to"**. Select the criteria then **"Confirm"** to start guidance and give the general direction of the navigation route. 

Organising waypoints

- 4 To organise waypoints, carry out the previous operations 1 to 3 again (Adding a waypoint).
- 5 Select the waypoint that you want to move in the order. 
 - PARIS, Avenue
 - NEUILLY, Boulevard
 - BOULOGNE, Rue
- 6a Select **"Up"**. 
- 6b Select **"Down"**. 
- 6c Select **"Delete"**. 
- Select **"Road map"** to view the changes made to the route. 

05 NAVIGATION - GUIDANCE

Route options

Calculation criteria

1

Press **Navigation** to display the primary page then go to the secondary page.

2

Select **"Settings"**.

3

Select **"Criteria"**.

4

It is then possible to choose:

- the navigation criteria: **"Fastest"**, **"Shortest"**, **"Time/distance"**, **"Ecological"**.
- the exclusion criteria: **"Include tollroads"**, **"Include ferries"**, **"Traffic"**, **"Strict"**, **"Close"**.

5

Select **"Confirm"**.

!

The ecological calculation is based on mapping data but this may not always be correct.

05 TRAFFIC

Traffic information

Display of messages

1

Press on **Navigation** to display the primary page then go to the secondary page.

2

Select "**Traffic messages**".

3

Set the "**On the route**", "**Around**", "**Near destination**" filters to fine-tune the list. Press again to remove the filter.

4

Select the message from the list offered. Select the magnifying glasses to have the information spoken.

i

TMC (Traffic Message Channel) messages contain information on traffic and weather conditions, received in real time and transmitted to the driver in the form of audible announcements and symbols on the navigation map.

Setting filters

1

Press on **Navigation** to display the primary page then go to the secondary page.

2

Select "**Settings**".

3

Select "**Info option**".

4

Select:
- "**Warn of new messages**",
- "**Speak messages**",
Then enter the filter radius.

5

Select "**Confirm**".

i

We recommend a filter radius of:
- 12 miles (20 km) in urban areas,
- 30 miles (50 km) on motorways.

05 TRAFFIC

Main traffic symbols	Receiving TA messages												
<p>1 Red and yellow triangle: traffic information, for example:</p> <table border="0"> <tr> <td> Modified signs</td> <td> Narrow carriageway</td> </tr> <tr> <td> Slippery surface</td> <td> Accident</td> </tr> <tr> <td> Delay</td> <td> Roadworks</td> </tr> <tr> <td> Risk of explosion</td> <td> Road closed</td> </tr> <tr> <td> Demonstration</td> <td> Danger</td> </tr> <tr> <td> No entry</td> <td> Traffic jam</td> </tr> </table>	 Modified signs	 Narrow carriageway	 Slippery surface	 Accident	 Delay	 Roadworks	 Risk of explosion	 Road closed	 Demonstration	 Danger	 No entry	 Traffic jam	<p>1 Press on Navigation to display the primary page then go to the secondary page. </p> <p>2 Select "Settings". </p> <p>3 Select "Voice". </p> <p>4 Activate / Deactivate "Traffic (TA)". </p>
 Modified signs	 Narrow carriageway												
 Slippery surface	 Accident												
 Delay	 Roadworks												
 Risk of explosion	 Road closed												
 Demonstration	 Danger												
 No entry	 Traffic jam												
<p>2 Black and blue triangle: general information, for example:</p> <table border="0"> <tr> <td> Weather reports</td> <td> Traffic reports</td> </tr> <tr> <td> Wind</td> <td> Fog</td> </tr> <tr> <td> Parking</td> <td> Snow / ice</td> </tr> </table>	 Weather reports	 Traffic reports	 Wind	 Fog	 Parking	 Snow / ice	<p>i The TA (Traffic Announcement) function gives priority to TA alert messages. To operate, this function needs good reception of a radio station transmitting this type of message. When a traffic report is transmitted, the current audio source (Radio, CD, USB, ...) is interrupted automatically to play the TA message. Normal playback of the audio source resumes at the end of the transmission of the message.</p>						
 Weather reports	 Traffic reports												
 Wind	 Fog												
 Parking	 Snow / ice												

05 TRAFFIC

Diverting from a route

<p>1 Press on Navigation to display the primary page then go to the secondary page.</p>	
<p>2 Select "Traffic messages".</p>	
<p>3 Select "Diversion".</p>	
<p>4 Select the diversion distance by pressing + or -.</p>	
<p>5 Select "Recalculate route". The route will be modified in time and distance.</p>	
<p>6 Select "Confirm".</p>	
<p> The route may be diverted following the reception of a traffic information message.</p>	

05 MAP

Map settings

Map orientation

<p>1 Press on Navigation to display the primary page then go to the secondary page.</p>	
<p>2 Select "Map settings".</p>	
<p>3 Select "Orientation".</p>	
<p>4 Select: - "Flat view north heading" to keep the map always North up, - "Flat view vehicle heading" to have the map follow the direction of travel, - "Perspective view" to display a perspective view.</p>	
<p>5 Select "Confirm" to save the modifications.</p>	

05 MAP

Configure

1

Press on **Navigation** to display the primary page then go to the secondary page.

2

Select "**Map settings**".

3

Select "**Aspect**".

4

Select:

- "**Day** map colour" to have the map always in day mode.
- "**Night** map colour" to have the map always in night mode.
- "**Automatic day/night**" to have the brightness of the map adjusted automatically according to the ambient light level.

This mode makes use of the vehicle's sunshine sensor or by manual operation of the vehicle's lighting.

5

Then "**Confirm**" to save the modifications.

Street names are visible on the map from the 100 m scale.
